

SUBCHAPTER P—CIVIL PENALTIES FOR VIOLATIONS OF THE FEDERAL MINE SAFETY AND HEALTH ACT OF 1977

PART 100—CRITERIA AND PROCEDURES FOR PROPOSED ASSESSMENT OF CIVIL PENALTIES

Sec.

100.1 Scope and purpose.

100.2 Applicability.

100.3 Determination of penalty amount; regular assessment.

100.4 Unwarrantable failure and immediate notification.

100.5 Determination of penalty amount; special assessment.

100.6 Procedures for review of citations and orders; procedures for assessment of civil penalties and conferences.

100.7 Notice of proposed penalty; notice of contest.

100.8 Service.

AUTHORITY: 30 U.S.C. 815, 820, 957.

SOURCE: 72 FR 13635, Mar. 22, 2007, unless otherwise noted.

§ 100.1 Scope and purpose.

This part provides the criteria and procedures for proposing civil penalties under sections 105 and 110 of the Federal Mine Safety and Health Act of 1977 (Mine Act). The purpose of this part is to provide a fair and equitable procedure for the application of the statutory criteria in determining proposed penalties for violations, to maximize the incentives for mine operators to prevent and correct hazardous conditions, and to assure the prompt and efficient processing and collection of penalties.

§ 100.2 Applicability.

The criteria and procedures in this part are applicable to all proposed assessments of civil penalties for violations of the Mine Act and the standards and regulations promulgated pursuant to the Mine Act, as amended. MSHA shall review each citation and order and shall make proposed assessments of civil penalties.

§ 100.3 Determination of penalty amount; regular assessment.

(a) *General.* (1) Except as provided in § 100.5(e), the operator of any mine in which a violation occurs of a manda-

tory health or safety standard or who violates any other provision of the Mine Act, as amended, shall be assessed a civil penalty of not more than \$70,000. Each occurrence of a violation of a mandatory safety or health standard may constitute a separate offense. The amount of the proposed civil penalty shall be based on the criteria set forth in sections 105(b) and 110(i) of the Mine Act. These criteria are:

(i) The appropriateness of the penalty to the size of the business of the operator charged;

(ii) The operator's history of previous violations;

(iii) Whether the operator was negligent;

(iv) The gravity of the violation;

(v) The demonstrated good faith of the operator charged in attempting to achieve rapid compliance after notification of a violation; and

(vi) The effect of the penalty on the operator's ability to continue in business.

(2) A regular assessment is determined by first assigning the appropriate number of penalty points to the violation by using the appropriate criteria and tables set forth in this section. The total number of penalty points will then be converted into a dollar amount under the penalty conversion table in paragraph (g) of this section. The penalty amount will be adjusted for demonstrated good faith in accordance with paragraph (f) of this section.

(b) *The appropriateness of the penalty to the size of the business of the operator charged.* The appropriateness of the penalty to the size of the mine operator's business is calculated by using both the size of the mine cited and the size of the mine's controlling entity. The size of coal mines and their controlling entities is measured by coal production. The size of metal and nonmetal mines and their controlling entities is measured by hours worked. The size of independent contractors is measured by the total hours worked at all mines. Penalty points for size are assigned based on Tables I to V. As
